Detecting in England  
Presentation by  
John Kotwas

### November 2021-

General Metal  
Detecting Knowledge  
with Question/Answer  
Period  
Presentation by Todd  
Yerks

## Presidents Message

October is now turning into November. As the crops are being harvested and the fields are opening up for metal detecting be sure to confirm your permissions and check to see what hunting season is currently open. Remember wearing bright orange, yellow or green vests isn't just for construction workers. Be sure you can be seen and not mistaken for anything other than a relic hunter.

I was just in the Adirondacks and while prepping to get out detecting, I watched another detectorist, move in and start hunting on the beach I was heading for. I watched for a while and saw that he wasn't really hitting the area hard, sort of just meandering. I walked over to chat. He was a local and said that he made his rounds to various spots throughout the year and this happened to be one of them. He said he was leaving because he wasn't finding anything. I decided to hit it anyway since I was there. I found close to a \$1 in change, an earring and a charm. Most people won't think that was a lot but, I was out in the fresh air and every time I heard a signal, I got excited. He was looking for big treasure fast, and I was looking for any treasure. Therefore, it wasn't bad for me at all.

Happy Hunting

Bob Francis

September Find of the Month  
Category- Coin  
Winner- Dan Fancher
